SC Medicaid like Maryland. We find that those pharmacies who advertise and offer the \$4.00/\$10.00/free prescriptions bill Medicaid at that rate as well. If you have to pay a fee for membership, then those prices are not extended to Medicaid. Nothing in our SPA.

The same for Maryland if it is an enrollment. We do audit those who do a \$4.00/\$10.00 (or similar) promotion including the free antibiotics.

Because it's an enrollment...we are told it cannot be considered a discount program .... And the rest of the story...it's not audited as U/C

**Subject:** RE: \$4 generic (and other similar) programs

Linda-its not in our SPA because there is no federal definition of U & C for anyone to actually conform to. We only reference U & C as part of our lesser of payment algorithm in the SPA. The good people in CT are the real experts on this and I encourage you to talk to them. Our definition in rule is;

**A pharmacy's charge to the general public that reflects all advertised savings, discounts, special promotions, or other programs including membership based discounts, initiated to reduce prices for product costs available to the general public, a special population, or an inclusive category of customers;**

Ralph

**Subject:** \$4 generic (and other similar) programs

We have been looking into billing by pharmacies that offer and publish \$0 or low dollar generic programs. What are you all doing about the programs that charge an "enrollment fee" like Walgreens? Do you consider those to be their U&C prices or because it has an enrollment fee, does that exempt them from the U&C requirement? If you are considering U&C to be applicable to those programs, did you have to make a change to policy or submit a SPA to do so?

Thanks!

Linda
